Release Plan - UCSC Tutor

High level goals:

1. Have a login/signup page for students and tutors.
2. Messaging feature for students and tutors to interact.
3. Venmo for money transactions
4. Profile for tutors
 1. credentials
 2. reviews
 3. picture
 4. description
 5. distance
5. Tutor Availability
6. Student feedback
7. Store data to cloud
8. User-friendly UI

User Stories for release:

Sprint 1:

(21) User story: As a tutor, I would like to be able to edit a user profile, so that students can see my credentials, availability, and location.

(3) User story: As a user, I would like to be able to sign up for the service, so that I can have access to other students/tutors.

(8) User story: As a user, I would like to be able to message my students/tutors, so that I can schedule appointments.

32 - total

Sprint 2:

(34) User story: As a student, I would like to be able to have a search criterion for time availability/ratings/classes taken(speciality), so that I can be matched with tutors that fit my needs.

(3) User story: As a student, I want to be able to rate my tutor-experience, so that other students can see the tutor's reliability/friendliness/knowledge of the subject.

(3) User story: As a tutor, I want to be able to submit feedback of my student's punctuality

40 - total

Sprint 3:

(13) User Story: As a tutor, I want to have a secure way to track time and guarantee payment throughout meetings

(13)User Story: As a student, I want a payment system that is secure and reflects time spent, so that what I pay is accurate.

(13)User story: As a student, I want a polished/user-friendly UI so I can easily navigate through the app.

(8)User story: As a tutor, I want a polished/user-friendly UI, so that I can easily navigate through the app

47 - total

Total: 119

Product Backlog:

- Suggested tutors based on past time requests/highly reviewed tutors.
