

Sprint 3 Report, UCSC Tutor App, 11/30/2015

Actions to stop doing: Showing up late to meetings causing delays. When meeting is in session, members should let each other talk while everyone listens.

Actions to start doing: Only take tasks you are capable of finishing on time and with good quality.

Actions to keep doing: Frequent scrum meetings allowed everyone in the team to be updated on who is doing what and their progress in their work. Slack is a very helpful tool and we are notified when a commit is made on Github. Learning how to use the technology we need in order to do our work.

Work completed:

- User story: As a student, I would like to be able to have a search criterion for time availability/ratings/classes taken(speciality), so that I can be matched with tutors that fit my needs.
- User story: As a tutor, I want to be able to submit feedback of my student's punctuality.
- User Story: As a tutor, I want to have a secure way to track time and guarantee payment throughout meetings.
- User Story: As a student, I want a payment system that is secure and reflects time spent, so that what I pay is accurate.
- User story: As a user, I want a polished/user-friendly UI so I can easily navigate through the app.

Work not completed:

- User Story: As a tutor, I would like to be able to edit a user profile, so that students can see my credentials and availability.
- User story: As a student, I want to be able to rate my tutor-experience, so that other students can see the tutor's reliability/friendliness/knowledge of the subject.

Work completion rate:

Completed 5 user stories. 70 ideal working hours completed. 18 days during prior sprint.
.28 user stories per day. 3.8 ideal working hour per day.
